

Band Care and Replacement Instructions

Our specially formulated rubberized neoprene band is designed to simulate a latex feel without concern for allergies, providing a secure, reliable grip during your workout. Each unit comes with three different band thickness options that offer varying degrees of assistance to accommodate all levels of physical fitness. While these bands are built to withstand many exercises for many years, special care should be taken for both usage and storage.

THE FOLLOWING CARE INSTRUCTIONS CAN HELP INCREASE THE LIFE OF YOUR BAND AND PRESERVE YOUR WARRANTY RIGHTS:

DO:	DO NOT:
<ul style="list-style-type: none"> Inspect your band before each use. Look for tears, rips, or puncture marks in the rubber. Be sure to check the rubber near the clip located on the end of the band. Do a secure check by pulling the rubber away from the clip and looking for any imperfections in the rubber. Do this check for both sides of the band. 	<ul style="list-style-type: none"> Do not store your band outside when not in use. Protect the Primal 7 bands from the elements at all times. Prolonged exposure to sunlight, damp conditions, extreme heat or cold temperatures can cause wear, breakage and/or weaken the components of the band, which could lead to severe injuries.
<ul style="list-style-type: none"> Use the appropriate band for each movement. Over stretching the band will increase the likeness for wear and tear. 	<ul style="list-style-type: none"> Never stretch the band more than two times (2X) its length as it will cause permanent damage to the band and could lead to injury.
<ul style="list-style-type: none"> Store bands separate from other equipment in your home or facility to avoid unnecessary weight, pulling or pinching of the band. 	<ul style="list-style-type: none"> Do not clean band with abrasive materials or harsh chemicals. Using a damp cloth, clean band with a simple water & soap solution as needed. Immediately dry with a clean cloth.
<ul style="list-style-type: none"> Follow proper use instructions from the Primal 7 Instruction Manual at all times. 	<ul style="list-style-type: none"> Do not coil or fold the band. This can lead to wrinkles or creases in the band that may weaken its integrity.
<ul style="list-style-type: none"> ALWAYS check for signs of wear and tear on the bands and straps before each use. 	<ul style="list-style-type: none"> If there are any signs of wear and tear DO NOT use your band.

REPLACEMENT CYCLE

Your band has a one (1) year manufacturer defect warranty. If your band breaks within the year of purchase it will be replaced at no cost. After the first year, replacement bands are available for purchase on our website at www.Primal7.com.

Replacement cycle is dependent on usage and intensity. If you do consistent, high-intensity training on the Primal 7 unit, the cycle for replacement will be a shorter period of time than those listed below.

- Expectation for a single user/home user is approximately 2-3 years.
- Expectation for multiple users/gym use is approximately 1-2 years.
- Expectation for multiple users/rehabilitation use is approximately 1 year.

PLEASE NOTE: You may return your used bands to Primal 7 so we can recycle the parts.
